**Report Page:**

The screenshot displays a web application interface. At the top, there's a browser address bar showing the URL: `siva1706-zany-eureka-rq5457sqwgc5pr4-5000.preview.app.github.dev/success`. The main content area has a black background. On the right side, there's a "LOGOUT" link. In the center, the text "Uploaded Image" is displayed above a photograph of a dark, irregular skin lesion. Below the image, the text "Model Prediction" is shown above a table. The table has three columns: "Rank", "Class", and "Probability". It lists three predictions: 1st rank for Melanoma (88.9 %), 2nd rank for Melanocytic Nevi (8.59 %), and 3rd rank for Benign Keratosis (2.48 %).

Rank	Class	Probability
1st	Melanoma	88.9 %
2nd	Melanocytic Nevi	8.59 %
3rd	Benign Keratosis	2.48 %
